

WHAT DOCTORS ARE SAYING

"The positive influence the Soluna spagyric detoxification regimen has on the liver, kidneys and lymphatic system can be readily seen in the blood through the aid of the darkfield microscope. Red blood cells that were previously clumped together like stacks of coins break up and circulation and oxygenation improve."

- Anna Roeker, N.D.

Note: For proper detoxification to occur, it is recommended to drink more fluids; preferably in the form of water.

LONGEVITY AND DETOXIFICATION

Cellular blockages, tissue degeneration, and the development of illnesses are all related to a high toxic burden. Biological medicine demonstrates how the effective correction of the dynamics of the detoxification functions of the body is paramount to correcting the chronic recurring health problems perplexing our society. Achieving optimal health and longevity are intimately interconnected to maximum detoxification functions.

BENEFITS OF SOLUNA DETOXIFICATION & DRAINAGE

ELIMINATE POSSIBLE CAUSES OF DISEASE

The connective tissue is the primary widespread matrix of the body. Toxins and metabolic waste that are not excreted are deposited in the connective tissue. *This leads to serious negative effects* - especially on the musculoskeletal system, circulatory system, nervous system, and endocrine system. **Diseases of these organs and systems should always be accompanied by Soluna detoxification & drainage.**

INCREASE EFFECTIVENESS OF OTHER TREATMENTS

Soluna detoxification & drainage therapy provides a strong reaction in the entire body and thus **supports self-healing and vitality**. Therefore, *detoxification & drainage should accompany any treatment method to provide support and maximize effectiveness of other therapies*. The results of natural remedies and holistic treatment in general are increased and duration of successful treatment is shortened.

MAINTAIN HEALTH AND PREVENT ILLNESS

Soluna detoxification & drainage is an **excellent preventive measure against illness and to maintain optimum health**. Just like one should have a "spring cleaning" of their home, a **detoxification & drainage therapy once or twice a year is highly advisable**.

soluna spagyric remedies

Why are the Soluna remedies so effective at detoxifying the body?

Soluna uses **highly concentrated, bioavailable and non-toxic natural ingredients** to stimulate and regulate the organs of elimination for maximum performance. *The Soluna remedies act on all levels, from cellular to energetic*, so that these organs of elimination are able to handle the great number of toxins that threaten your health.

Detoxification & Drainage is essential in today's toxic environment

WHY DETOXYFY?

We are living in a sea of toxins. It's literally all around us. From the food we eat, to the air we breathe, there is contamination to some degree with toxic substances everywhere. Today, **more than 80,000 chemicals are used in the U.S.**, and scientists estimate that **everyone alive today carries within his or her body at least 700 contaminants**, most of which have not been well studied. For many people, this high number of toxic substances can overload their normal detoxification processes and they are no longer able to keep the toxins at bay. When this occurs, toxins begin to store themselves within the body. Some toxins, such as neurotoxins, are stored in the brain and can lead to serious neurological disorders. Therefore, *the goal of any detox program is to help the body excrete and eliminate the toxins that have built up in the body and support and restore the major detoxifying organs of the body (such as the liver and kidneys) to their optimal functioning states.*

Energetic Toxicity: Modern day technology has introduced a new type of toxin - electromagnetic pollution has a toxic effect on the body which may be addressed with Soluna detoxification & drainage.

DETOXIFICATION OF THE BODY, MIND & SPIRIT

Holistic Measures to Rid Toxins

It's not enough that your natural medicine not contain any toxic elements, but it must also help to rid of toxins in a gentle yet effective manner. Soluna spagyric remedies **regulate and activate the organs of elimination on multiple levels**, so that they may efficiently work to take on the toxic burden most of us are subjected to on a daily basis.

3 Main Detoxification Remedies

- » **NR. 8 HEPATIK**
this remedy helps to regulate the **liver**, one of the most important organs of elimination.
- » **NR. 9 LYMPHATIK**
an excellent drainage remedy, Lymphatik works to stimulate the **lymphatic system**.
- » **Nr. 16 RENALIN**
Renalin is for general kidney support, and aids in the removal of toxins through the urinary tract.

Soluna Detoxification & Drainage Regimen "Spring Cleaning" for your body

A note from Thomas K. Szulc, M.D.

In my experience as a medical doctor in both conventional and alternative medicine, I have witnessed first hand the epidemic of toxic patients that are struggling with their health and the diseases and conditions that come as a result of their toxicity. When I speak of a patient's toxicity, I not only refer to the exogenous (*chemicals, additives, heavy metals, etc.*) and endogenous toxins (*uric acid, homocystein, polyglutamine, etc.*), but electromagnetic and toxic "*thoughts*", or toxic energies. **This combination of multiple types of toxicity, both seen and unseen, is the leading determinant of diseases and conditions.** Your body is like your home - if you allow garbage and dirt to accumulate without cleaning, you are inviting pests to come and run havoc in your home. So in the same way we need a clean home to avoid infestations, we cannot ignore our body's terrain and how important it is to eliminate toxins from our body in order to achieve health. **In my opinion, if every person would use the Soluna detoxification program one or twice a year, our expenses for health care would drop dramatically and we would prevent many chronic medical conditions.**
